

## **POOL SURVEY COMMENTS**

- Would love to have a tennis court but expense would make it prohibitive.
- Take out pool and tear down all buildings and fences. Plant xeroscape landscaping.
- Make area into “park like” area with barbeque pit and tables.
- Do more research about the required/requested use.
- Modify Option 6 to proceed with filling in the cold pool which will be lower cost than any of the other options..
- Have an overhead retractable canvas device to cover two lanes of the heated pool so swimmers can swim in the shade.
- Fill in pool with sand for volley ball...install gas barbeque.
- Fill totally in to level tile over. Build ramada, outdoor tables, chairs. Gas barbeque.
